

UNLOCK THE FUTURE OF PLASTIC CONTAINER COATING

WITH KORTRAX™ BARRIER RESIN™

THE FLUORINATION CHALLENGE: A RISK TO YOUR BUSINESS AND THE ENVIRONMENT

The conventional fluorination coating process, known for its efficiency, is under scrutiny due to the production of "highly toxic" PFAS chemicals. Beyond the environmental impact, this poses a real threat to your brand reputation and customer trust.

WHY MAKE THE SWITCH TO KORTRAX™ BARRIER RESIN™?

1. PFAS-FREE EXCELLENCE

Bid farewell to PFAS-related concerns. Kortrax™ BARRIER RESIN ensures a barrier protection that meets or exceeds industry standards, without the use of harmful chemicals.

2. UNMATCHED PERFORMANCE

Kortrax™ BARRIER RESIN goes beyond traditional fluorination, providing superior barrier properties, extended shelf life, and enhanced product integrity. Your products deserve the best – give them the Kortrax™ BARRIER RESIN advantage.

3. ECO-FRIENDLY INNOVATION

Be a sustainability leader. Kortrax™ BARRIER RESIN is crafted with a commitment to environmental responsibility, allowing you to reduce your carbon footprint and meet the demands of eco-conscious consumers.

4. REGULATORY COMPLIANCE

Stay ahead of evolving regulations. Kortrax™ BARRIER RESIN has received approval from regulatory bodies, ensuring your products meet and exceed current environmental standards.

5. COST-EFFECTIVE TRANSITION

Switching to Kortrax™ BARRIER RESIN is a seamless process that not only safeguards your brand but also proves to be a cost-effective choice in the long run. Elevate your packaging without breaking the bank.

KEY ADVANTAGES OF KORTRAX™ BARRIER RESIN™
